

Friday 8th October 2021

Dear Parents & Carers,

Next week, we are hosting a Family Support Workshop for our Reception parents via Zoom. At this workshop, we will be able to tell you about all of the support opportunities available for parents/carers, including our adult literacy ESOL course (run here at school by Havering Adult College) which is designed for people whose first language is not English; and Parentgym which is a well-established, six-week programme that shares and explores practical tips and strategies to make family life easier and help your children thrive. Reception parents, please do join us if you can.

The first stage of parent governor elections are almost complete and we have had several parents nominated for the role. Next week, we will be sending out the ballot papers and the names of nominees so parents can vote for the person that they would like to represent them on the governing body. Thank you to all of the parents who have agreed to put themselves forward for this important position.

Finally, as a special treat we have booked the circus to come to Concordia! On Monday 18 October, each class will watch a performance by the Lucas Jet circus company in the main hall. This will include juggling, acrobatics, and a unicycle!

Have a great weekend, all.

Kind regards,

Mr Raheel Akhtar
Headteacher

CURRICULUM CORNER—Y4

This week, Year 4 have been learning about good conductors and bad conductors. They learnt that some materials are able to carry electrical currents through them, which therefore make them good conductors. They did this through an experiment using the operation board game, where they needed to make the nose light. If it lit, the material they used was a good conductor.
