

## **Hundred square activities**

**Included in this pack is a 100 square. This is a very valuable resource for children to practise their number knowledge over the summer break. Below are some activities they can do with the 100 square.**

1. Choose any number and count forwards in ones or twos.
2. Choose any number and count backwards in ones or twos.
3. Choose any number and count forwards in fives or tens.
4. Choose any number and count backwards in fives or tens.
5. Make a pattern with the numbers.
6. Count in twos with only even numbers.
7. Count in twos with only odd numbers.
8. Copy your hundred square onto a blank piece of paper.
