Dear Parents/Carers,

As mentioned in previous letters, one of the benefits of partnering with Explore Learning for tuition is that they grant access to their online learning platforms outside of the weekly sessions taking place in school. This means that the children can have unlimited additional practice to secure the skills they have been working on with their tutors.

One of these platforms is Compass. Here, pupils have access to their own tailored learning pathway, with integrated adaptive technology to ensure content is at the correct level, accessible and relevant. This content is specific to each pupil, rather than general group content. It has been specifically designed and developed to engage individual pupils as they work with their tutor towards key learning objectives.

A guide on getting set up with Compass has been attached in order to support you with making the most of your child's tuition and we would urge you to make the most of this resource for as long as it is available.

Your child is not currently working at the age-related expectation for their year group but by making the most of Compass and their tuition, they will make progress towards catching up. This will, in turn, set them up for success throughout their primary and secondary education.

If you need any further help with this, please do let the school know.

Yours sincerely,

Laura Black

Deputy Headteacher
